OBJECTIVE

Aspiring full-stack developer proficient in HTML, CSS, JavaScript, and Java. Experienced in designing user-friendly web applications and integrating backend services to deliver complete software solutions.

EDUCATION

B.Tech in Computer Science, Ideal Institute Of Technology
CGPA: 8.5/10

Expected 2027
AP, India

Intermediate (MPC), MSN Junior College
Percentage: 94%

2021 - 2023
AP, India

SKILLS

Programming Languages	Java, HTML, CSS, JavaScript
Databases	MySQL
Developer Tools	VS Code
Academic Coursework	OOP, DBMS

PROJECTS

College Event Management System:

- Developed a web-based College Event Management System to simplify event creation, participant registration, and event-wise data management.
- Implemented an admin-based Manage Events module to create, view, and delete events and manage registrations.
- Used Firebase Firestore to store participant and event data with persistent access across devices.
- Deployed the application using Firebase Hosting and used GitHub for version control. ([Project Link](#))

ACHIEVEMENTS

- Earned **4-Star Problem Solving** and **4-Star SQL** badges on **HackerRank**, demonstrating strong problem-solving and database querying skills. ([HackerRank](#))
- Completed 40 coding challenges on CodeChef, demonstrating consistent practice in programming and problem-solving. ([CodeChef](#))

CERTIFICATIONS

- Introduction to Internet of Things** – NPTEL ([Certificate](#))
- Google AI/ML Virtual Internship** – EduSkills ([Certificate](#))
- Java Full Stack Developer Virtual Internship** – SmartBridge ([Certificate](#))

SOFT SKILLS

- Problem-Solving
- Teamwork and Collaboration
- Adaptability
- Self-Motivation
